1	Application of mathematical statistics in financial investment		
2	Structure-Property Relations in Functional Materials		Zuo-Guang Ye
3	Commercial operation mode of new products entering the market quickly		
4	Wool Appreciation Course		Allan De Boos
5			Joanne Brasch
6	Designer's Toolkit		Laura Isoniemi
7	Creative performance of fashion designers		
8	Product Service Design		Duy Phong VuDeLonghi
9	Design strategies for fashion system		Gabriele Goretti
10	Inclusive Design		Cruz Guerra
11	Marketing Analytics		Ofir Turel
12	Data assimilation		
13	Consumer Psychology		
14	& Design research & cultural encounters		Aadjan van der Helm
15	The Study and Application on Artificial Intelligence Technology		
16	FPGA AI		
17			

18	Stochastic Network Optimization		
19	Polymer Chemistry		Andrij Pich
20	Requirements of technical regulations of textiles in global market		
21	Comparative Literature and Comparative Culture		
22	China Stories and Chinese-English Translation		David Ferguson
23	Environmental Toxicology and Radiation Hazard		Paul Heroux
24	Sustainable Building: Consumption less enjoy more
